

Brussels, 5th June 2025

Today, our General Assembly unanimously elected **Pascal Eveillard as our new President** and **Torsten Schoch as Vice-President**, with Cédric de Meeûs as Senior Vice-President after his five-year presidency.

Pascal is Group Director, Sustainable Business Development and Sustainable Construction at Saint Gobain. He is strongly committed to the sustainable transformation of the built environment, the promotion of sustainable construction, the development of more sustainable construction products and solutions. Upon his nomination, **Pascal stated**:

“I am honoured to take on the Presidency of Construction Products Europe. With the ongoing European-wide housing crisis that we need to help resolve, our sustainability and circularity objectives remain unchanged. We have launched a fruitful dialogue with the European Commission on the announced 2026 Circular Economy Act, and I look forward to enhancing the role of the construction products industry in this and numerous other EU files.”

Torsten Schoch is the CEO of Xella *Technologie- und Forschungsgesellschaft mbH*. He joins Construction Products Europe as Vice-President with the objective to assist the association and its members address the competitiveness challenges. **Torsten explained** that:

“The EU Clean Industrial Deal offers support to the suppliers of clean technologies and products. We should accelerate our transition to a circular construction industry and seize this opportunity to drive the EU construction agenda.”

Christophe Sykes, Director General, thanked them both for their engagement and thanked Cédric de Meeûs the support he offered to the association these last years and welcomed the strengthening of our membership as Glass for Europe, EUMEPS, *Deutsche Bauchemie* join as full members, and GS1 as affiliate member.

Founded in 1988, Construction Products Europe is a Brussels-based international non-profit making association. The association is made up of national and European associations that represent Small and Medium-size Enterprises and world-leading companies. Construction Products Europe aims to promote the European construction industry, to share information on EU legislation and standardisation and to provide input in all European construction-related initiatives.
